**n.d.; 1894-20011(predominant 1920-2000)**  
**7.00 linear meters of textual records and cartographic documents**

**Biographical Sketch:** Oiva W. Saarinen (1937- ) was born in Sudbury, Ontario, Canada.

After completing his elementary and secondary education in Sudbury, he received an Honour's B.A. in Economics and Political Science and his M.A. in Geography from the University of Western Ontario in London, Ontario. He then acquired a Ph.D. in Geography from University College in London, England. He was a Full Professor of Geography at Laurentian University in Sudbury, until he retired in 2003, at which time he was granted Professor Emeritus status.

His research interests have centered on the historical geography of Sudbury, the study of single-enterprise communities in Canada, and the Finnish community in North America. He has published extensively in journals, written numerous book reviews, and published an award-winning book titled *Between a Rock and a Hard Place: a Historical Geography of the Finns in the Sudbury Area* which was released by Wilfrid Laurier University Press in 1999. He has presented papers at numerous conferences, the most recent being at *Finnish Immigrants in the Decade of Depression (1929-1939)*, which was held in Thunder Bay in March of 2004. He is also on the Editorial Board of the *Journal of Finnish Studies*.

As a Professor at Laurentian University from 1962 to 2003, Dr. Saarinen served on a wide variety of university committees. He served as Chair of the Geography department in 1970-1971, and was the President of the Laurentian University Faculty Association (LUFA) in 1980-1981. He is actively involved in many local Finnish organizations, such as the Knights of Kaleva, the Sudbury *Suomi* Lions Club, and the Finnish National Society. He is currently the Grand Trustee of the Knights of Kaleva in North America. In recognition of his work on behalf of the Finnish community, the Government of Finland in 2001 awarded him the *Knight of the Order of the White Rose, 1<sup>st</sup> Class*.

Professor Saarinen is married to Edith, and they have two children, Kai and Kristen.

**Scope and content:** The Oiva W. Saarinen fonds attests to his research interests on the Finnish Communities in North America, as well as on the urban development of single-industry towns in Northern Ontario, and also to his documentary productions. It also informs us about his involvement in different associations and organizations within the Finnish community of Canada. It contains notes, articles, research papers and publications he produced in the course of his research activities, and documentation. Further to documenting the immigration of Finns to North America, and to Northern Ontario, and their role in the development of cities such as Thunder Bay and Sudbury, the studies, reports and photocopies of archival materials, also cover the early settlements and economic activities of the different regions. For instance, in the sub-series "Lake Panache", lumbering, as well as environment aspects of the presence of the dam, land

claims by natives and their presence, are also addressed and documented. In the sub-series “Sudbury”, the annotated maps, the assessment rolls, and lists from Vernon's, or reports on mining in the region, inform us about the Finnish community and their activities in the region. The short stories and testimonies, and recollections of members of the Finnish community in Sudbury, also provide significant primary sources of information.

The papers and publications are divided in 3 Series: I: Oiva Saarinen publications; Series II: Books and other materials and Series III: Books and other materials on Economic and Urban Development. Series II is divided into 9 Sub-series:
